Contents Volume 3, 1990/1991

Geochemical variability in the oceans, ice and sediments: an introduction
L.D. Labeyrie (Gif-sur-Yvette, France) and C. Jeandel (Toulouse, France) 1
Microbial response to the input of fresh detritus to the deep-sea bed
C.M. Turley (Bristol, U.K.) and K. Lochte (Kiel, F.R.G.) 3
^{234}Th cycling in the upper water column of the northwestern Mediterranean Sea
S. Schmidt, J.L. Reyss, H.V. Nguyen and P. Buat-Menard (Gif-sur-Yvette, France) 25
Impact of atmospheric deposition on particulate manganese and aluminium distribution in northwestern Mediterranean surface water
J.E. Davies and P. Buat-Menard (Gif-sur-Yvette, France) 35
Modelling the biogenic transport of atmospheric particles in the Mediterranean Sea
D.P. Ruiz-Pino (Villefranche-sur-Mer, France), C.E. Lambert (Gif-sur-Yvette), C. Jeandel (Toulouse, France) and P. Buat-Menard (Gif-sur-Yvette) 47
Variability of trace-metal fluxes through the Strait of Gibraltar
A. van Geen and E. Boyle (Cambridge, MA, U.S.A.) 65
Resolving the intermediate and deep advective flows in the Indian Ocean by using temperature, salinity, oxygen and phosphate data: the interplay of biogeochemical and geophysical tracers
N. Metzl (Paris, France), B. Moore (Durham, NH, U.S.A.) and A. Poisson (Paris, France) 81
Further evidence for a link between Late Pleistocene North Atlantic surface temperatures and North Atlantic Deep-Water production
E.A. Boyle and P. Rosener (Cambridge, MA, U.S.A.) 113
Testing the astronomical theory with a coupled climate—ice-sheet model
A. Berger, H. Gallée, T. Fichefet, I. Marsiat and C. Tricot (Louvain-la-Neuve, Belgium) 125
Late Pleistocene and Holocene sea-level change along the Australian coast
K. Lambeck (Canberra, Australia) and M. Nakada (Kumamoto, Japan) 143
In Memoriam E.T. Degens
J. Thiede (Kiel, FRG) 177
Foreword
S. Cloetingh (Amsterdam, The Netherlands) 179
Geosphere fluctuations and global change—Opening
K. Fuchs (Karlsruhe, FRG) 181
Geosphere forcing: plate tectonics and the biosphere
W.S. Fyfe (London, Ont., Canada) 185
Importance of the geological record in understanding global change
K. Burke (Houston, TX, USA), P. Francis (Honolulu, Hawaii, USA), and G. Wells (Oxford, UK) 193
Late Pleistocene, Holocene and present sea-levels: constraints on future change
K. Lambeck (Canberra, ACT, Australia) 205
The Younger Dryas cold spell—a quest for causes
W.H. Berger (La Jolla, CA, U.S.A.) 219
The impact of the El Niño 1982 event on the Paraná River, its discharge and carbon transport
P.J. Depetris (Cordoba, Argentina) and S. Kempe (Hamburg, FRG) 239
Export production: seasonality and intermittency, and paleoceanographic implications
W.H. Berger (La Jolla, CA, U.S.A.) and G. Wefer (Bremen, FRG) 245
Geomagnetism: the next millenium
D. Gubbins (Leeds, UK) 255
Global data collection and the surveillance of active volcanoes
P.L. Ward (Menlo Park, CA, U.S.A.) 263
Worldwide dispersal of ash and gases from earth's largest known eruption: Toba, Sumatra, 75 ka
W.I. Rose and C.A. Chesner (Houghton, MI, USA) 269
Evidence of volcanic loading of the atmosphere and climatic response
H. Sigurdsson (Kingston, RI, U.S.A.) 277

Deccan volcanism at the Cretaceous–Tertiary boundary: past climatic crises as a key to the future?
V. Courtillot (Paris, France) 291
Implications of chaos, scale-invariance, and fractal statistics in geology
D.L. Turcotte (Ithaca, NY, U.S.A.) 301
Actualistic catastrophism and global change
K.J. Hsü (Zürich, Switzerland) 309
Development of early Eocene warm climates, as inferred from clay mineral variations in oceanic sediments
C. Robert (Marseille, France) and H. Chamley (Villeneuve d'Ascq) 315
Glacial–interglacial mean sea level pressure change due to sea level, ice sheet and atmospheric mass changes
M.-A. Mélières, P. Martinerie, D. Raynaud and L. Lliboutry (St. Martin d'Hères, France) 333
Climatic evolution and control on carbonate deposition in northeast Australia
D.A. Feary, P.J. Davies, C.J. Pigram and P.A. Symonds (Canberra, Australia) 341
The significance of coral reefs as global carbon sinks—response to Greenhouse
D.W. Kinsey and D. Hopley (Townsville, Australia) 363
Global coastal hazards from future sea level rise
V. Gornitz (New York, NY, USA) 379
The Greenland ice sheet and greenhouse warming
P. Huybrechts (Brussels, Belgium), A. Letreguilly (Bremerhaven, Germany) and N. Reeh (Bremerhaven, Germany) .. 399
